SUBJECT INDEX
Volume 2 Numbers 1–6

A

Adolescent, critically ill, education for, 116
Antiarrhythmic drugs, experimental, 271
Arrhythmia
  computerized monitoring in, nurse and, 174
  pediatric, 147
Artificial-heart patient, nursing techniques for, 167
Autotransfusion system, modified, 353

B

Blood loss, improving estimation of, 120
Blood pressure, monitoring of, radial artery palpation for, 75
Book reviews
  Cardiac Nursing, Underhill, S.L., and others, 126
  Nursing Administration of Critical Care, Hayne, A.N., and Bailey, Z.W., 126
  Principles of Ostomy Care, Broadwell, D.C., and Jackson, B.S., 127
Bretylium, hypotension induced by, 285

C

Calcium-channel blocking agents, administering, 70
Cardiac transplantation, nursing during acute period of, 212
Children
  arrhythmia in, 147
  fluid and electrolyte requirements in, 280
  IVs for, 23
Clinical experiences, optimal, for senior nursing students, 366
Clinical specialist, expanded role in critical care for, 98
Computer, nurse and, in arrhythmia monitoring, 174
Continuing education, for experienced nurse, 183
Coping tasks, in critical care, 80
Critical Care Nurse Speaks Out, 233

D

Decision making, in critical care nursing, 162
Duty to herself, critical care nurse's, 102

E

Editorial
  Acute Renal Failure: Mortality or Magic, 324
  Computers in Critical Care Nursing: The New Revolution, 133
  Nursing Diagnosis in Critical Care, 5
  Wellness: A Survival Skill for Critical Care Nurses, 260
Education. *See* Continuing education; Patient education
Embolism, fat, 158
Equipment vs. people, 234
Expanded roles, in critical care, nurse practitioner or clinical specialist and, 98

F

Family, caring for, in unknown period, 248
Fat embolism syndrome, 158
Fluid and electrolyte requirements, pediatric, 280

G

Graduate program, in critical care, 310
Gunshot injury, management of, 344

H

Heart
  artificial, nursing techniques for, 167
  transplantation of, nursing during acute period in, 212
Heart disease, ischemic, intravenous nitroglycerin in, 10
Hyperglycemic crisis, standard care plan for, 262
Hypotension, bretylium-induced, 285

I

Independent study unit, developing, 371
Intra-aortic balloon pump
  technique for, 196
  timing of, hemodynamic assessment of, 205
Intravenous line, pediatric, 23

J

JCAH accreditation survey, planning for, 237
Just Jonathan, 233

M

Marketing strategy, for recruitment and retention, 360
Monitor technician, controversy over, 294

N

Nitroglycerin, in ischemic heart disease, 10
Nurse practitioner, expanded role in critical care for, 98
Nursing diagnosis, in critical care setting, 44

Nitroglycerin, in ischemic heart disease, 10
Nurse practitioner, expanded role in critical care for, 98
Nursing diagnosis, in critical care setting, 44

P

Pacemaker patient, pulse counting and, 180
Pancreatoduodenectomy, preventing complications in, 90
Patient, classification of, in critical care, 36
Patient education
  for critically ill adolescent, 116
  process oriented, 108
  for PTCA, 56
Percutaneous transluminal coronary angioplasty, 56
Pneumonia, hospital-acquired, prevention of, 287
Psychological disturbances, in critical care, 314
PTCA, patient education for, 56
Pulse counting, pacemaker patient and, 180

R

Radial artery, palpation of, blood pressure monitoring and, 75
Recruitment and retention, marketing strategy for, 360
Renal failure, chronic, management of acute conditions in, 328
Resuscitation, open-chest, nursing role in, 338

S

Scheduling, weekend, 12-hour shift in, 171
Senior nursing students, preparing, optional clinical experiences for, 366
Streptokinase, intracoronary, 136
Students, planning critical care experiences for, 50
Support group, staff, organizing, 304

T

Transplantation, cardiac, nursing during acute period of, 212

U

Unknown period, caring for families during, 248
Urinalysis, analyzing results of, 225

W

Weekend scheduling, 12-hour shift in, 171
Woman, battered, 30
